

Forever Bee Propolis®

#027

Forever Bee Propolis®

Fortify your body like bees fortify the hive

Forever Bee Propolis® is a natural supplement made from the substance bees use to fortify and protect their hive. Honeybees gather leaves, buds and the bark of trees and create propolis to safeguard the hive from outside threats. It also contains natural nutritional compounds to help fortify the human body.

For thousands of years, humans have been gathering propolis from the hive. In fact, the ancient Greeks, Romans and Egyptians consumed propolis to promote good health.

Our formula packs all the healthful benefits of propolis into a chewable tablet that's easily digestible and absorbed.

Research has shown that the substances bees use to protect the colony can also support the body's natural defenses. Bee propolis is also a natural source of flavonoids, the same nutrition found in fruits and vegetables.

Forever Bee Propolis offers you key nutrition straight from the hive. We use natural ingredients with no artificial colors or flavors added. When taken with Forever Bee Pollen®, it can help you get the natural energy kick you need to support a healthy, active lifestyle.
